OBJECTIVE

Pre-final year student looking for SWE(Full stack) and SRE internships

EDUCATION

Bachelors of Technology, Heritage Institute of Technology Expected 2025

Relevant Coursework: C++ programming, Data Structure and Algorithms, Computer Networks

School, Adamas International School 2008 - 2020

SKILLS

Languages	C, C++, Javascript, Typescript
Frameworks	Reactjs, Nextjs, Nodejs, Expressjs
Tools	Docker, Kubernetes, Jenkins, Ansible, Nginx, Git, Postman

EXPERIENCE

Independent Builder Aug 2023 - Sep 2023
Buildspace *San Francisco, US*

- My team got selected for the global 6 weeks program Nights and Weekends s4 backed by YC and a16z
- Working on the Frontend of webapp CommunityChat and integrating it with a stable backend.
- Exploring modern designs and implementing post-production (DevOps) ideas.

PROJECTS

Health and Fitness App Built a webapp by using ReactJS, NodeJS, ExpressJS and MongoDB to **provide users with correct workouts and diet plan as per the their body goals**. It is a hackathon project under SoftCodeHacks 1.0 of PHICSIT. ([Try it here](#))

Recycle It Built an online marketplace for plastic waste management for **Start-A-Thon Organized by Jamsetji TATA Society for Innovation and Entrepreneurship (JITSIE), IIT Madras, Startup Ignition Cell (SIC), RVEI and Wadhwani Foundation**. I was responsible to work on the backend routes for e-commerce part, integrated the connection of backend and frontend and implemented a few UI stuffs in frontend ([Check here](#))

Rexpress Starter Built an npm starter pack to set up **express and react together without going through the boring way of installing npm packages**, not only Rexpress has built-in React and Express libraries it is empowered with TailwindCSS, React-icons , React-Router-Dom, CORS , nodemon, Mongoose.([Check the npm regsitry](#))

My Portfolio Its my **Portfolio** made using Next.JS and TailwindCSS([Check Here](#))

EXTRA-CURRICULAR ACTIVITIES

- Regular write-ups of me in **Ampere**, the college departmental magazine.
- Participated and secured **2nd runner-up** position in **Hult-Prize** campus season 2022

QUALITIES

- Building bridges from **frontend to backend**, and deploying dreams with DevOps: Full stack developer and **DevOps enthusiast**.
